The *IMPROVED* FC Series
"Smooth Glide"
Television Support Arm
*The Best Arm In The Industry Is
Now Even Better!*

*The
First
Choice
Is The
Best
Choice
Every
Time*

Introducing The *IMPROVED* FC Series “Smooth Glide” Television Support Arm. The Upgrades You Want With The Service You Expect

- ◆ Hardened steel with an anti-friction surface coating on all pivoting members allows for the quietest and smoothest movement of any support arm available
- ◆ Unobstructed spring bolts make any adjustment quick and simple
- ◆ Elimination of dangerous pinch points greatly reduces patient hazard
- ◆ Allen head locking device provides added security against tampering
- ◆ Precision made interchangeable replacement parts allow speedy and inexpensive maintenance
- ◆ Cable restraints in special locations prevent kinking and greatly reduce coaxial maintenance
- ◆ Factory installation of pre-terminated cables is available

FC-80
57” extension, supports a load of 4 to 14 lbs. Designed for LCD sets.

FC-100
57” extension, supports a load of 10 to 20 lbs. Designed for CRT sets.

All arms now feature improved high-strength mounting pins and hardware, providing superior resistance to excessive arm forces

FC-120
73” extension, full nose, supports a load of 5 to 12 lbs.

FC-120S
70” extension, stub nose, supports a load of 5 to 18 lbs.

Extra deep channel allows up to 6 cables to be contained within the arm.

- ◆ No spring noise, ever !
- ◆ Exclusive pivot bracket technology for added strength
- ◆ Can be mounted on all existing wall and counter mounts
- ◆ One piece elbow adds more stability
- ◆ Use of low-profile hardware
- ◆ Superior powder coating for quick easy cleaning, adding a long life to a sturdy product
- ◆ Available in a variety of colors
- ◆ Rounded edges on all channels give the entire system a sleek appearance that cleans easily
- ◆ One of the most attractive & simple support arm systems on the market
- ◆ When used in conjunction with our FC30-12 12-tap power supply, cable distances of 250’ or more are possible

The FC series “Smooth Glide” Television Support Arm features a strategically located braking system that allows a wide range of adjustment and ease of movement. Maintaining a positive position for comfortable viewing, the FC Series Television Support Arm is perfect for any healthcare grade television.
